

CIE INCUBATOR

HELPING NEW VENTURES SUCCEED

Essential Tools for Success

Cal Poly Center for Innovation and Entrepreneurship's (CIE) two-year intensive Incubator Program supports early-stage companies into becoming scalable, high-growth businesses.

Our programming focuses on technology and innovation startups, especially in the areas of clean-tech, ag-tech, med-tech and aerospace, but startups in other industries are accepted and encouraged to apply.

Applications are open to all entrepreneurs, regardless of university affiliation. See online application for full requirements.
